

Cheese and Sauerkraut 10-Miler

December 1, 2018

McBaine, MO

Starting on January 22, 1975 and never missing a year, this year's 44th running of the Cheese and Sauerkraut 10 – mile predicted time race presented the competitors with possibly the most clement weather conditions ever with high 40s and sunshine.

Peter Hessler, Ridgway, Colorado, traveled 14 hours and got to our house at 1:00 a.m. Friday night in order to attend a funeral on Saturday. Being a CTC Summer Program rat pretty much from the inception of that program, he dropped in on the C&S race but came up empty handed, along with all but two of the competitors, Mary Clark with the worst predicted time (one big jar of sauerkraut) and Bernie Hereth with the best prediction (three cheeses). Ryan Hauser was the first male across the finish line (1:00.25) and Katie Hauser was the first female (1:05.23).

A very special thanks to Nancy Rezabeck for providing a wonderful variety of post-race treats, including hot chocolate, Thom Allen, Tony Taube, and Nancy Rezabeck for timing and scoring the race. Once again, thanks to Mary De la Guerra who expedited the park permit process.

--Dick Hessler and Randy Gay, co-race directors
